Al Khalili Specialized Projects LLC's clientele includes MoH hospitals, Health centers, clinics, Municipalities, Defence & Police forces, Private hospitals & clinics, Oil & Gas companies, Pharmaceutical manufacturers, food manufactures, Academic & Agricultural institutions, Research centers and private laboratories.

# Chairman's Message

"If the last century was about meeting human needs, this one is about matching human aspirations. We live in a world where the young reach higher, dream bigger and demand more; a world that is challenging the limits of hope and possibility. Nowhere is this more strikingly visible than in Oman, a country that wakes up every morning a little younger in age, but infinitely more ambitious in spirit. This brave new Oman shows the poised nature of youth with their desire for real and rapid change and for a quality of life that is second to none. They are also driving the push for world-class infrastructure, products and services in the fields of transportation, communications, energy, information, entertainment, technology, education, healthcare and personal finance.

The Al Khalili Group embodies the spirit of this evolving and resurgent Oman and stands ready to adapt to the changes needed to see their desires come into fruition. Our goal is not just to build a great enterprise for our stakeholders, but to build a great future for our employees, business associates and, more importantly, our nation and the world at large. It is to give hundreds of millions of people the power to fulfil their dreams, shape their own destiny and the means to realize their true and diverse potential ".

**Qais Salim Al Khalili**

## Vision

Our Mission is to be the leading medical supplier in Oman, a mission we aim to accomplish through consistently improving our services, competency and skills, based on market requirements and changes.

A vital element in our development is our ability to fully take on board all customer feedback and adapt it to our daily learning experiences.

## Mission
