Technical Data

- ✓ Factory Tested at 300PSI (20Bar).
- ✓ Capacities: 150 to 300 -liter
- ✓ Backup heating elements 1.5 to 3.5KW
- ✓ 10 bars tank and collector pressure.
- ✓ Reduce carbon footprint, renewable product.
- ✓ Collector sizes 2.0 and 2.5 square meters
- ✓ High absorption glass and special AR coatings
- ✓ Clear temperedmat prismatic, clear tempered glass
- ✓ Enabling at 840C

Features

- ✓ Single / multiple collectors available
- ✓ Double jacket design (excellent heat dissipation)
- ✓ Exterior jacket made from anodized Aluminum (excellent for extreme climate conditions).
- ✓ Standard Base frame 21-35degree, optional 21 and 45 deg.
- ✓ Standard RAL 9006 color, optional 9010,Mg,Al, SS304,SS316
- ✓ T&P Safety Valve, Mixing Valve, Expansion tank, Ext. Cover
